REV 1
MADE IN THE USA

Kit:

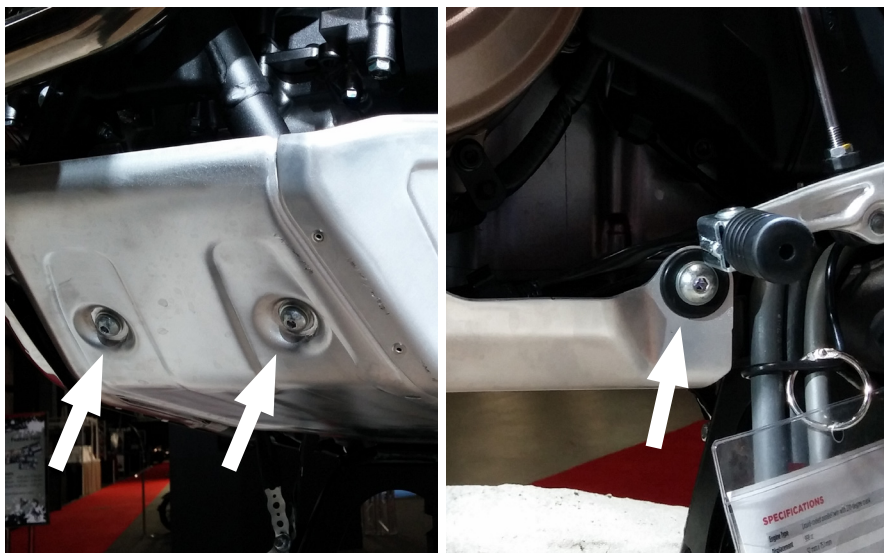

- ① Skid plate
- ② Rear Mounting bracket
- ③ (2) M8 x 50 socket cap screws
- ④ (4) M8 x 16 flat head screws
- ⑤ (2) M8 Spacer
- ⑥ (2) M8 Washers

Required Tools:

- ① 12mm spanner
- ② 5mm allen tool
- ③ 6mm allen tool
- ④ 12mm socket
- ⑤ driver handle
- ⑥ ratchet handle
- ⑦ 14mm spanner
- ⑧ Medium strength thread locker

- ① Use 5mm allen wrench to remove the three M8 button head screws and remove OEM belly pan. You will not re-use these screws.

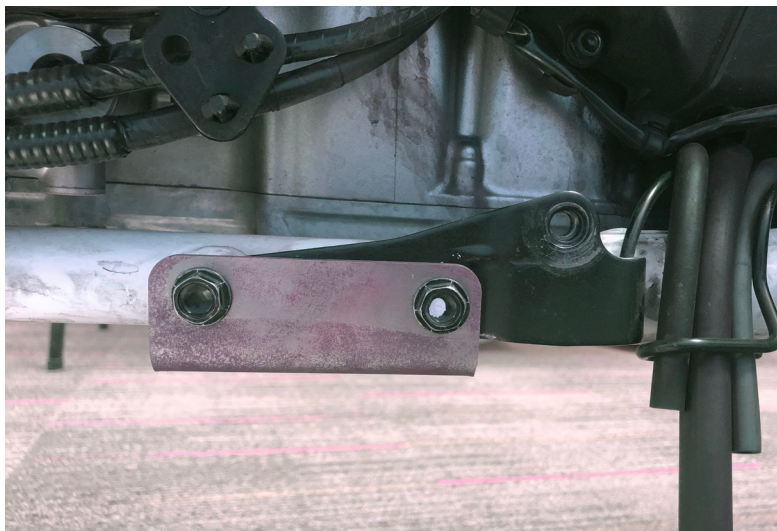

- ② Remove rubber grommet from Honda belly pan and insert into AltRider rear bracket as shown. TIP! A dab of water will help it slide into place easier.

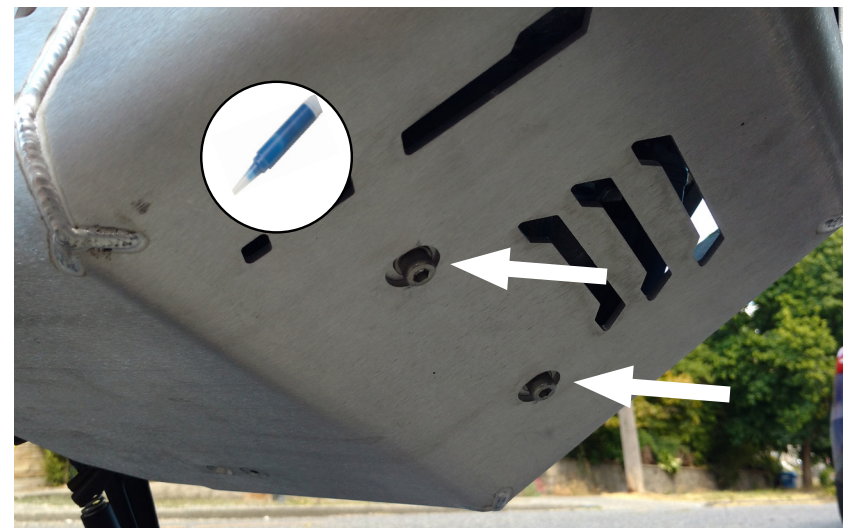

- ③ Use 12mm socket and remove the two hex head M8 screws from the small bracket as shown. Save these screws for reinstallation. Leave the OEM hose bracket in place.

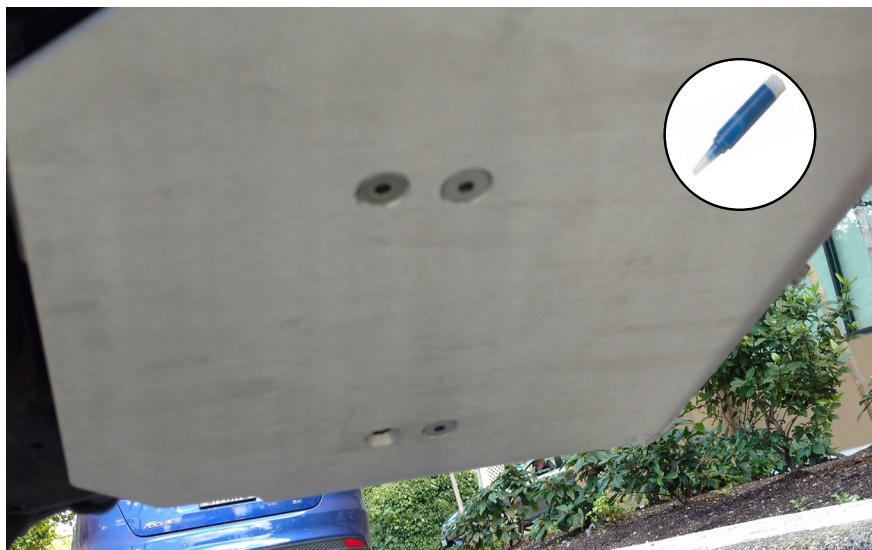

- ④ Install the AltRider rear bracket. Slip the rubber grommet over the metal stud as shown.

- ⑤ Place the rear bracket over the small OEM hose routing bracket and reinstall the two M8 hex head screws finger tight.
! If you are also installing the AltRider Lower Crash Bars, pause this installation and move to installing the Lower Bars, they use these same mounting points.

- ⑥ Hold the AltRider skid plate in place and install the front two M8 cap head screws with washers. Insert the 20mm Spacers on the inside of the plate. TIP: Apply a heavy grease to the edge of the spacers to stick the them to the plate while inserting the fasteners for easier handling. Apply a drop of thread locker to each screw. Just get the screws started, and leave loose during installation.

- ⑦ Attach skid to rear bracket, use four M8 flathead screws as shown. Apply a drop of loctite to each screw. Get each screw started by hand. Tighten each screw in sequence, working from screw to screw in turn until each is up to 10 Nm. Next, tighten the front M8 socket cap screws to 15Nm.

- ⑧ Use 12 mm spanner to tighten the two hex head bolts on the left side rear bracket.

CONGRATULATIONS!

You've completed your installation. If at any point you have questions about your installation or have any feed back for us, we'd love to hear it. A downloadable version of these instructions can be found at our web site. www.AltRider.com

After 5 hours of riding, or 100 miles, check all the fasteners on the assembly to ensure they are tightened to spec.
