Follow the exploded view to the right.

Use the provided hardware and assemble as shown.

When tightening, use the 4mm allen tool on the (2 qty) M6x30 flat head fasteners while holding the nylock nut below with the 10mm wrench.

Use the 6mm allen tool on the (2 qty) M8x45 flat head fasteners while holding the the nylock nut below with the 13mm wrench.

Tighten all (4 qty) nuts until the rack does not move. The brackets **will** deform, this is expected and increases the stability of the assembly.

The M8 hardware is behind the stainless bracket in reality, this is visible only for visualization purposes.
